Investment arbitration has become the primary means of settling disputes between states and foreign investors. The majority of those arbitration proceedings take place before tribunals of the International Centre for the Settlement of Investment Disputes (ICSID). The decisions and awards of ICSID Tribunals are the primary source for the development of the law and heavily relied on by other tribunals.

This book, written by two practitioners in the field, presents a digest of the decisions and awards by the ICSID from the years 2003 - 2007. Fully cross-referenced and accompanied with analytical chapters tracing the development of jurisprudence, it is an indispensable tool for both practitioners and academics.
